

Does your child have Asthma?

If so, can you say YES to these questions:

- Is your child between 2 – 12 years old with asthma?
- Do you smoke cigarettes every day & are thinking about quitting?
- Do you know a friend, family member or co-worker who has smoked near your child recently & is also thinking about quitting?

If you answered yes to all of these questions, we would like to tell you about a research study offering a chance to help you and someone you know quit smoking.

You and a friend, family member or co-worker have the chance to EACH earn up to \$500!

If you would like to know more about this study, please text or call us to set up an appointment to see if you are a good fit for our study.
