

Let us help you **quit smoking** for good!

If you are 18-55 years of age and **ready to quit smoking**, you may be able to join a **research study** at NIDA. NIDA is located on the campus of Johns Hopkins Bayview Medical Center in Baltimore.

Our research looks at ways to help people stop smoking and how to prevent smoking relapse. Research participation will involve:

12 weekly counseling sessions

Medication (Chantix) or e-cigarettes

5 to 6 MRI scan sessions over a period of 1 year

*All **treatments are free** and you will receive money for your time and local travel*
